

# LIMOUSINE 2014

## VIGNY P

**PAYCHECK P x JORDY**  
FR 8604154069 \*24.9.2004

Relative breeding values – direct effect, CZE, 12/2013

60 progeny/19 herds

120 days	210 days	365 days	Index - growth
103	107	104	105

Vigny P was born as genetically polled bull In well-known French herd Domaine des Forges, a pioneer of Limousine polled breeding. Although his father is a Canadian bull Paycheck, the French Limousine herd book accepted Vigny and registered him. He was classified very high by a Czech assessor, having received three times 8 points (10 is maximum) for beef conformation in shoulders, back and rump. He received great 81 points in the total exterior evaluation! Vigny was tested in insemination in Germany. His current RZF index is 102 and BV for growth is 113. His Calves are expected to be of good beef conformation and frame. His first calves were weighted in Czech herds

## ZAKO P

**RIDGES x FAKIR**  
CZ 100500190 \*11.9.1999

Relative breeding values – direct effect, CZE, 12/2013

44 progeny/12 herds

120 days	210 days	365 days	Index - growth
105	105	107	106

The bull is intensively used for his genetically polled character all over the world. He is exceptional for his big frame and extreme body length together with firm back. His weight was 1400 kg, thought Zako was very fit bull and reliable semen donor. We have sold more than 80.000 of his doses. Progeny are being calved easily and they are lively calves with high frame and very good growth capacity.

## BOLIDE P

RYDE URANOS P x NENUPHAR  
FR 8700840992 \*23.9.2006

Relative breeding values – direct effect, CZE, 12/2013

12 progeny/8 herds

120 days	210 days	365 days	Index - growth
99	103	109	104

Genetically polled Bolide represents progressive trend of the Limousine breeding. His Danish father, polled Ryde Uranos P, was bull of perfect beef conformation. Uranos' doses are being used for pure breeding insemination in France and other countries including Czech Republic. Maternal father is a well known French improver Nenuphar, also widely used for pure breeding. Bolide was purchased in France.

It is a bull of very good growth and development. We rate his beef conformation of back and rump the most. We recommend Bolide for both pure breeding and crossing.

## NIKOLKA

KOLJA VFU x JOKEY  
CZ 106446081 \*13.4.2005

Relative breeding values – direct effect, CZE, 12/2013

3 progeny/3 herds

120 days	210 days	365 days	Index - growth
105	117	111	111

Pedigree of the bull displays the best premises for growth. His father Kolja and maternal father Jokey have the growth breeding value higher than 120! Also Nikolka has very high breeding value for growth. Nikolka displays average frame with good beef conformation which is very useful in crossbreeding.

**EXCELLENT TYPE!!!**  
(height 108, length 118,  
weight 118, muscularity 119,  
body capacity 120,  
breeding type 120)
