

Limousine

UGO PP DNC

Rex P x Icar P

Ugo PP DNC was purchased at the autumn auction of KBS Genetic Winter Fair 2024 in France. This homozygous hornless bull has a completely outcross pedigree. Ugo's dam has a milk yield of 103.

The bull is mixed type with excellent muscling and pelvis. Beautiful head and modern exterior. Ugo PP is a harmonious and functional bull. Due to his pedigree we predict calving to heifers.
