### CONFORMATION

Singer P is a heterozygously polled bull, which like Ravi was purchased in Charmoy, France. Singer impressed us especially with his great morphology and especially with his big body frame. Singer has absolutely excellent limbs and locomotion.

Singer's sire is Nobel PP, who is currently one of the most used polled bulls in France, the dam's sire is an excellent Bariton. The dam, MM and MMM are qualified with the highest qualification RR4S. Singer does not carry the gene for double muscling and progressive ataxia.
