GROWTH

CONFORMATION

The heterozygously polled Halan is a very interesting bull from domestic production. The breeding value for ease of birth predetermines him for heifers without any problem. The sire of Alan is the German Alan PP, the dam is a daughter of the English bull Wilodge Tonka. His greatest assets are his excellent muscling, great temperament, overall harmony and functionality. At the Limousin show in 2022, he placed third in the young bull category, where he was the best muscled bull in the category according to the judge. Halan is recommended for heifers and cows in the elevage or mix elevage type.

EXTERIOR EVALUATION									
Frame			Body capacity			Muscularity			Breeding type
VT	DT	HM	PŠ	HH	DZ	PL	HŘ	ZÁ	
9	8	10	7	8	7	8	8	8	8

acronyms: VT - height, DT - length, HM - weight, PŠ - chest width, HH - chest depth, DZ - pelvis length, PL - shoulder, HŘ - top line, ZÁ - Thigs
